

## HAROLD SEIDLIN

Dr. Harold Seidlin, of Leopoldville, Belgian Congo, is the second member of the Association of whose death word has been received. When the writer was in the southern part of that country, in the latter part of 1931, the senior medical officer of that district recommended Dr. Seidlin to be the Contributing Editor for the Congo. When the matter was taken up later, the Chief Medical Officer informed us of Dr. Seidlin's recent death. A biographical statement has been requested.
