

## CLOSING CEREMONIES SHORT COURSE PROGRAM REPORT

Dr. W. Felton Ross

More than 300 different individuals participated in the 25 short course sessions offered on 21 different topics and run by 19 different facilitators. Many participated in more than one session. The average attendance per session was 23. There were 15 two-hour sessions and 10 one-hour sessions. Four sessions were offered twice. No fees were charged. Special thanks are due to

the facilitators who not only led the sessions but, in many instances, provided hand-outs to the participants. Thanks are also due to the course assistants and to those who administered the program behind the scenes. The costs of rooms and equipment rental were borne by the Congress organizers. A list of topics and facilitators follows.

Short Course Topic	Facilitators/Instructors
Sustaining Leprosy Work through Primary Health Care	Dr. Raj S. Arole
